

POLYVINYL ALCOHOL 24-88 (L)

Formula:

$(\text{CH}_2\text{CHOH})_n$

Specification

Characteristic of Polyvinyl Alcohol 24-88 (L)

Property	24-88(L)
Alcoholysis Degree	86.0-89.0%
Sodium Acetate	2.5 % max
Volatile	5% max
Ash Content %	0.7% max
pH Value	5-7
Viscosity	40-50 mpa.s

Note: Values are typical unless otherwise specified.

Packaging

In Paper bag of 25 kg net with plastic lining or 800 kgs big bag on pallets net each.

Applications

Mainly used in Textile sizing material, bond, coating, emulsifier, soil modifying agent, etc.
